(Check appropriate blank)

Estimated Total Project Costs: \$ 63,000,000.00

Estimated ARRA Funds: \$ 55,728,000.00

Description of Project Need:

A regional public drinking water project to serve a total population of over 20,000 persons. This project is intended to replace existing water sources currently utilized by 19 separate city and rural water association entities located in North Central Arkansas. Some of these existing water sources are contaminated with Radium 226, Radium 228, Uranium, and excess amounts of Fluoride. The water will be treated and distributed through approximately 110 miles of transmission lines across some of the most rugged terrain in the state.

Certified this 12th day of May, 2010.
